Homework #1

- Managing ambiguity – a wearable fitness device/app
 1. Describe the ambiguity of each of the following:
 - a. “Must be fast.”
 - b. “Must be easy to use.”
 - c. “Must maintain privacy.”
 2. Describe 2 user categories distinct w.r.t. 1b.
 3. Use an AI bot to help remove the ambiguity from each requirement.
 4. Use the bot to help plan for testing.
 - a. A strategy (e.g., test environment, testers, etc.) for showing that the app meets each requirement.
 - b. A test case for each requirement.
 5. Discuss the risk that the AI responses may be insufficient and explain how you will mitigate exposure.
- Response document must be .doc or .pdf by Feb. 7th.
 - Include transcripts of your AI tool interactions.
