Homework #4

- Design a driver engagement system (DES) which must utilize partners to manage the exception of the human driver failing to maintain level 3 SA
- Deliverable
 1. Describe a minimal set of partners
 2. Specify a min-binary protocol for each partnership
 3. Analyze the lag times for a potential collision
 4. Use lag time and risk analysis to justify a fully automated self-driving alternative
- Please submit by April 22nd
